## WORK EXPERIENCE

### Frontend Developer, Careers360 - React.js, Next.js, HTML, CSS, Tailwind, JavaScript

Dec 22 - Present

- Developed **responsive**, pixel-perfect web pages from Figma and Photoshop designs.
- Collaborated with backend developers to seamlessly integrate frontend components with **RESTful APIs**, ensuring smooth data flow and application stability.
- Engineered a dynamic, scalable registration form for a **500K+ user/month** ed-tech platform, increasing user engagement **by 15% through an Intelligent auto-fill feature** and a seamless UX using React and Formik.
- Developed **reusable** React.js components, improving efficiency and reducing development time.
- Enhanced both client-side and server-side rendering, achieving a 25% **faster page load speed** and a 20% boost in search engine visibility, leading to **better SEO** rankings.
- Implemented **Error boundaries** in React, preventing crashes and improving application stability.
- Applied **unit testing** with Jest and React Testing Library, reducing **post-deployment issues by 15%** and increasing code reliability.
- Optimized **Core Web Vitals**, improving LCP by 25%, FID by 20%, and CLS to below 0.1, using techniques like **code splitting** with React.lazy and **lazy loading** for images and components, reducing initial load time by 30%.

### Trainee, EClxer – React.js, HTML, CSS, JavaScript, REST API

June 22 - Aug 22

- Developed strong skills in HTML, CSS, JavaScript, React.js, and **REST API** integration for building scalable web apps.
- Applied **Agile methodologies** using Jira & used Git for version control to improve team productivity & code management.

## SKILLS

**Languages:** HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript, TypeScript

**State Management:** Redux, Redux Toolkit, React Query, Context API

**Soft Skills:** Strong Problem Solving, Leadership, Effective Communication

**Library:** React.js, Next.js, Bootstrap

**Tools:** Git, Postman, Lighthouse

**Others:** Data Structure & Algorithms

## OFFICIAL PROJECTS

### Registration Form | React.js, Next.js, TypeScript, Redux, Axios, Formik, HTML, CSS

[LINK](#)

- Created a scalable, responsive registration form for an ed-tech platform, used by over **0.5 million users** monthly.
- Implemented **auto-fill functionality** for common fields like name, email, and phone, reducing form completion time by 15% and enhancing user experience.
- Led the integration of **Google OAuth Login** for secure authentication, resulting in an increase in user registrations.

### Ebook Pages | React.js, Next.js, TypeScript, Redux, HTML, CSS, Bootstrap

[LINK](#)

- Implemented **server-side rendered** ebook pages that provide seamless access to ebook downloads, exam updates, writing a review, improving **page load time** and **SEO**.
- Integrated **smooth navigation** and **interactive UI** components to enhance user engagement and accessibility.

## PERSONAL PROJECT

### QR Menu Ordering System | React.js, Next.js, TypeScript, Redux, Axios, Formik, HTML, CSS

[LINK](#)

- Implemented **QR code scanning** to enable customers to view menus, add items to cart, and **place orders linked to table numbers**.
- Developed **order confirmation messaging system** to improve customer communication and experience.
- Built an admin dashboard for **real-time menu updates**, enhancing operational efficiency and accuracy.

## EDUCATION

### Master of Computer Application (MCA)

Aug 2021 - May 2023

Lovely Professional University, Punjab – **CGPA-9.0/10**

### Bachelor of Computer Application (BCA)

July 2018 - July 2021

Guru Nanak Dev University, Punjab – **CGPA-8.8/10**

## ACHIEVEMENTS

- Awarded the **Livewire Award** in Jan-Mar 2025 quarter for timely delivery and excellence in the **AI-powered FAQ CMS** project.
- Received the **Shooting Star Award** in Oct 2024 for consistently outstanding performance and meeting critical project deadlines.
